Explanations	

Türkiye's leading technology company in identity & access management and data security, Kron, has been recognized among the world's top data security providers by global cybersecurity analysis firm KuppingerCole.

Featured in KuppingerCole's Leadership Compass: Data Security Platforms report, Kron was the only Turkish company mentioned in the research. Previously acknowledged as a global leader in KuppingerCole's Privileged Access Management (PAM) reports, Kron has further solidified its position in the cybersecurity industry by being named among the world's top providers in database access and data security. This recognition reflects Kron's strong global presence, commitment to R&D, and track record of delivering cutting-edge security solutions.

Further details on this achievement can be found in the Newsroom of our website at www.krontech.com
